Dear Pirjo,

According to our telephone conversation yesterday I can tell you now that the Board of Estonian Medical Association has given his support to the application from the Estonian Society of Radiology and Prof. Risto Härkönen for grant to Finnish lecturers.

There are no more applications for this year.

Thank You and the Board of the Finnish Medical Association very much for this support which has been really big help in developing co-operation between Estonian and Finnish doctors.

Yours sincerely

Katrin Rehemaa
